

## Northwest Indiana Transit Development District

# PROGRESS REPORT

**December 2020**

THE NORTHWEST INDIANA REGIONAL DEVELOPMENT AUTHORITY held its first public engagement sessions for the Transit Development Districts, or TDDs, in November and December. These virtual meetings covered the Munster Ridge Road, Munster Dyer Main Street and Ogden Dunes station areas. Sessions for more communities will be announced in January.

### Ridge Road

### Main Street

### Ogden Dunes

## Q&A

**For those of us who live within the TDD boundary, will our taxes go up?**

No. Establishment of the TDD boundary only allows the capture of incremental tax revenue. The TDD legislation does not authorize a new tax or levy.

**What impact do you anticipate the project to have on existing businesses and residential properties within the TDD and TIF boundaries?**

There is a tremendous opportunity to positively impact community growth, which enhances existing businesses and residential properties. Anticipated growth outcomes include new community-oriented development and new infrastructure such as streets, bridges, trails, and open space.
